Photographs of complete vessels used for comparative purposes have been given identifiable letters beginning with 'A'.

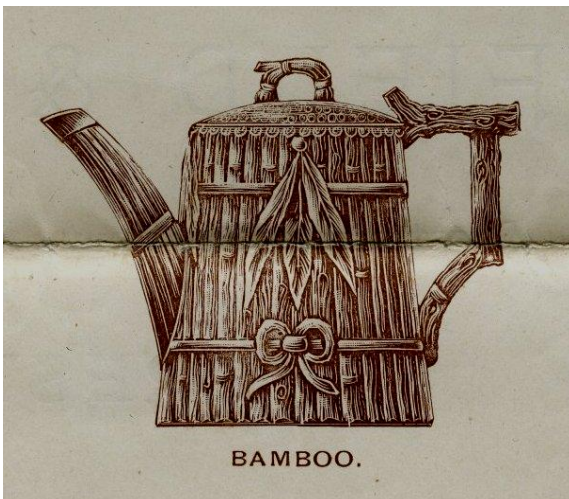

Seven hundred and thirty seven Rockingham glazed shards from in excess of twenty two teapots were recovered mainly from contexts (G 1, 006 and 021), but most other contexts also contained shards from Rockingham glazed teapots. Examples identified from marked shards, or from published forms, show that they were produced at the Belfield pottery in Prestonpans.

Context	Shards	Form	Rim Diameters	Name	Illus No
G. 1	105	Tea Pots		Bamboo	198 a & b

One hundred and five Rockingham glazed shards from a minimum of two teapots moulded in the "Bamboo" design. A large number of shards in this design from the Belfield kiln site in Prestonpans have recently been published (Haggarty 2010, Word File 043). Both teapots are marked with a Belfield backstamp (illus 198a)

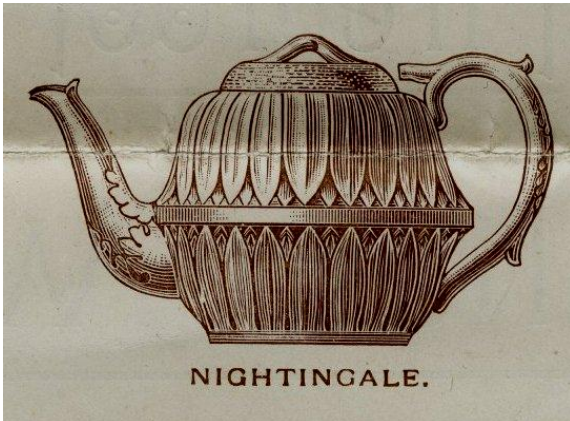

(**Illus D**): taken from a recently discovered Belfield of Prestonpans catalogue: This design, no. (268309), was registered by Belfield on the 30th Nov 1872.

G. 1	4	Tea Pot		Edinburgh	201

Four Rockingham glazed shards from a single teapot moulded in the “Edinburgh” design, identified from a recently discovered catalogue. A number of shards in this design from the Belfield kiln site in Prestonpans have recently been published (Haggarty 2010, Word File 052). A complete example, along with its extremely ugly stand, is held in the collections of the City of Edinburgh Museum, see (illus F) below.

Context	Shards	Form	Rim Diameters	Name	Illus No
G. 1		Tea Pots			204

The vast majority of the Rockingham glazed shards recovered appear to be from plain teapots. Given the pressure of work involved, there was little to be gained from further restoration.
